Asst/Assoc Prof Clinical/Tenure Track-Dermatology

Job no: 521213

Work type: Teaching & Research Faculty

Senior management: College of Veterinary Medicine

Department: Small Animal Clinical Sciences

Location: City, State

Categories: Veterinary Medicine

Job Description

The Department of Small Animal Clinical Sciences of the Virginia-Maryland College of Veterinary Medicine, at Virginia Tech invites applications for a faculty position in Dermatology. This is a fulltime, Clinical or Tenure track position, at the rank of Assistant or Associate (based on the credentials of the selected candidate). The primary job responsibility will be management of the dermatology service in the Veterinary Teaching Hospital. In addition, the successful candidate will provide consultation to primary care clinicians in the Veterinary Teaching Hospital and referring veterinarians. Teaching assignments will include didactic teaching of student courses and participation in laboratories involving dermatology and related disciplines. The successful candidate will also participate in continuing education programs of the College and faculty governance activities. The candidate must be committed to excellent patient management, client service and clinical teaching. Participation is expected in general departmental service activities, such as meetings, resident seminars, journal club and rounds. Research responsibilities will vary based on the track, interest and qualification of the candidate and may include independent, collaborative or translational research. The successful candidate will be encouraged to work with ongoing research programs within the College, in order to contribute to the scholarly mission of the department.
